**Mindfulness** -To help you and your family feel relaxed.

Describing emotions This week when you have some quiet time, sit with your child and do some slow mindful breathing- big breaths- in through your nose and out through your mouth. When you are both relaxed see if your child can describe some different emotions to you. How does it feel when they are angry, happy or worried? You could suggest that they of their emotions as colours or types of weather.

## Get ready for the day!

Choose a different item of clothing to focus on this week. How did you get on last week? Build up your skills each day until you can hopefully do it yourself by the end of the week. Ideas include: pants, trousers, socks, top. Maybe even buttons, zips, buckles or laces!

It's nearly September and time to start school. Can you get ready all by yourself? 😊

Preparation for September! Let's have a look at some videos about starting school. There are 5 songs to watch, so try a different one every day.
