

Reception 'Our Local Area' Project

The Spring Term project for Reception pupils is called 'Our Local Area', which is a topic your child covered during the second half of the Autumn Term. They explored different aspects of the local area and learnt about maps and routes. They learnt what symbols represent on maps as well as about famous explorers such as 'Shackleton the Explorer'.

Written Project

Below are some ideas to include in your project; remember to be as creative as possible. You can include lots of other information too!

- My house
- My road
- Places I visit in the local area (shops, places of worship, local parks, library etc.)
- My route to school
- Important people in the history of our local area (James Watt, Matthew Boulton, William Murdoch)
- Maps of routes to key places the children may visit

Creative Project

Your child can choose from the following creative tasks for their project:

- Create a 3D map
- Create a model of my road
- 3D model of your favourite place
- 3D model of your house

Pictures of **both** the written and creative project **must** be uploaded to Class Dojo. Please upload pictures every 2 weeks to demonstrate your child's progress. Your child's class teacher will remind your child to do this.

The completed project should be brought to school and handed to the class teacher by:

Monday 29 March 2021
