Weekly Science Tasks

Read 'Plant Growth' on Page 2 of your CGP Science Study book.

Task

Your task is to create a poster on Plant Growth, using the information you have just read. This can be included as part of your project (see below).

Weekly History Tasks

Read Page 4 and 5 on the River Nile in your CGP History Study Book and complete Exercise on Page 4-5 in your CGP History Activity Book (KS2 only).

Task

Revise the key words: River Nile and Black Land on your Ancient Egyptian Knowledge Organiser.
Ask your parents/older siblings to test you on the definition of these words.

Further Learning Opportunities Project - Plants

For the next **four** weeks the project is to focus on growing plants.

You can research information using the internet, or you can use your CGP Science books to get more information in how to go about growing your own plant.

Begin with simple mustard seeds or sunflower seeds. During the project, document the events by doing the following where possible:

- Write a plant daily diary to explain what you have done/what's happened to the seed/plant so far.
- Take photos of the seeds germinating, sprouting and growing.
- Ensure you look after the plant by watering at the correct times with the right amount of water – get an adult to help you monitor this.
- Draw pictures of the plant growing at different stages.
- Do some research and write facts about the plant you have chosen to grow.
- Design a poster showing other children how to grow a plant.
- Create some artwork based on a 'Summer Scene' featuring your chosen plant.
- Write a story about a child who decided to grow a plant – what happened? Think along the lines of the Jack and the Beanstalk fairy tale.
- Design a word search using different plant names.
