Further Learning Opportunities

Project – Board Game

Over the next few weeks, you will be working on researching and creating your own board game. Below are a few steps to help and guide you:

Step 1: Spend some time playing different board games, e.g. Monopoly, Scrabble, Snakes and Ladders.

Step 2: Do some research on board games. Write your research down.

Step 3: Think about your theme, e.g. trains, dragons, princesses.

Step 4: How do you win in this game? E.g. Highest score wins, first to finish wins, elimination.

Step 5: How do you play your game? Write a set of instructions for your game.

Step 6: Create and make your board game!

Step 7: Test your game. Show your family and friends, explain to them what your game is and how to play. You may need to test your game a few times, depending on feedback and your ideas to improve it.

Top Marks- <https://www.topmarks.co.uk/>

This is a great website that is free to use and has a range of games for the different subject areas.

Learning games for kids- <https://www.learninggamesforkids.com/>

There are a range of games for different subjects. There are games that are particularly good for children to learn to type on a computer keyboard. This is also helpful for the children to recognise the capital letters.
