

YEAR 3 HALF-TERM PROJECT - NATURE

As this week is half-term, the school will not be producing the usual home learning packs and instead pupils are invited to complete some creative, fun projects at home.

The Year 3 teachers have set a mini 'nature project' to complete. With the weather being so much warmer it is a great time of year to collect natural materials from your garden, the park or a nearby open space or field (make sure you attend with an adult for the last two options).

Collect leaves, twigs, flowers and petals that you can find lying around (do not pull anything from the ground or take anything from forbidden places!).

Using the collection, create a magical scene to capture a moment in time.... You can set the scene at night time or have a 'summery' theme to your picture. Arrange and rearrange the materials until you feel you have the right creation. We would love to see pictures or even videos of the activities and the final results so please email them to enquiry@williammurdoch.bham.sch.uk so we can share them on Twitter!

You may also add any 'extras' e.g. sketch and cut out a house, tree trunk, people, the sun to make the picture stand out.

There are some examples below to inspire you.

Have a good break and have fun!

Mrs Najran, Miss Masih and Miss Mustafa
